Many Farms High School will continue with VIRTUAL LEARNING next week, August 11-August 15, 2205, due to ongoing electrical issues due to aging and malfunctioning transformers. Specifically:

- The **original transformer from 1968** powers the **old campus** and is no longer functioning reliably.
- The **transformer from 2000**, which powers the **academic building** was recommended to be replaced by Navajo Tribal Utility Authority (NTUA).

To address this issue, we have partnered with **Sunstate Equipment** to deliver a generator that will temporarily power the old campus. Once the generator is operational, the campus will reopen, with classes being **temporarily relocated** to the following areas:

- **Gymnasium**
  - *Language Arts*: Nadia Begay, Enda Cunnane, Deanna Tsinijinnie
  - *Electives*: Brandi Wartz (gym), Bessie Wilson, Denise Lucio
- **Recreation Center**
  - *Math*: Corvina Boyd, Linda Etsitty, Alfreda Tsosie
  - *Electives*: Jennifer Yellowhair
- **Residential Building**
  - *Social Studies*: Jonathan Charley, Edmond Sam, Daniel Smith
- **Building 1166 (Old Dormitory)**
  - Dale Etsitty, Diandra Crosby, Vernon Haskie
- **IT Building**
  - Tulene James, Katygene Jackson, Miranda Begay
- **Cafeteria Conference Room**
  - Bobbie Bekay, Tullus Deschenie
- **Facilities Conference Room**
  - Bertha Martinez

Navajo Electric has agreed to replace the faulty transformers, and the projected completion date for this work is **six weeks from Monday, August 11, 2025**, with an estimated completion date of **Friday, September 26, 2025**.

We appreciate everyone's flexibility and patience during this time and remain committed to maintaining a safe and effective learning environment for our students. Updates will continue to be provided via Remind, school website ([www.mfh.bie.edu](http://www.mfh.bie.edu)), and student Schoology account.

Respectfully,

*Louise Donald*

Principal

Many Farms High School
